

## **Coquitlam Overhead Crane Ticket**

Coquitlam Overhead Crane Ticket - The overhead crane is a common heavy machinery used in industrial environments. This machine is known as a bridge crane and consists of parallel runways spanned by a traveling bridge. The part which lifts materials is the hoist. The hoist travels along the bridge.

The overhead crane when utilized for maintenance or manufacturing applications would provide more efficiency than a mobile crane. This kind of crane is likewise commonly used in the steel industry. Steel is handled by an overhead crane at each and every stage of the manufacturing process, from the pouring of the raw materials into the furnace up to the time the finished coils are lifted onto trucks and trains.

Overhead cranes are likewise commonly used in the automobile industry and paper industry. The removal of heavy press rolls and other machines at paper mills is done with bridge cranes. Bridge cranes are utilized to install the heavy cast iron paper drying drums and other huge equipment utilized in paper mills.
